Abstract: This is the SUJ template for articles written in English and Swahili languages. Please write your abstract here with “Times New Roman” font. The font size here in abstract should be 11-point. Below this abstract please write at least five key words.

Keywords: Keyword1, Keyword2, … , KeywordN

1. Introduction (Heading 1)

Write your introduction here. This template is compatible with Microsoft word 2007 and above. The paper size should be LETTER (8.5” x 11”). The author should follow this format in all the other sections after this introduction, with the font “Times New Roman” and size of 12-point regular. Don’t change the font type, size or format. The heading of all sections as indicated here is “Times New Roman Heading 1” bold font with 11-point in size and bold.

2. Second Section (Heading 1)

This min section and other following sections should follow exactly the same format as explained in the introduction above.

E-mail: author’s email

http://journal.sumait.ac.tz
3. \textbf{Another Section (Heading 1)}

This is also another main section which should follow the same format of the two previous sections…

\textbf{A. Subsection (Heading 2)}

This is how to write the title of subsection which should be “Times New Roman Heading 2” \textit{italic} bold with 11-pint in size. This means that all your subsection must follow the sequence of A, B, C … and so on.

\textbf{B. Another Subsection (Heading 2)}

This is also another sub-section which should follow the same format of the previous subsection.

4. \textbf{Tables, Figures, and Graphs}

It is advised to place figures and tables at the top and bottom of pages. Avoid to put them in the middle of pages. Vertical alignment should be centralized. The type of font in table and figure captions must be “Times New Roman” 12-point for caption and title and 11-point for table contents and figure illustrations. Captions of figures and graphs must be below the figures; while tables heads/titles should be above the tables. The insertion of tables, figures, and graphs should be after they are cited in the article text. Use the abbreviation “Fig. x:” for figures and graphs captions, and full text “Table x:” for table titles. Please use the table and figure layout and format as indicated below.

\begin{table}[h]
 \centering
 \begin{tabular}{|l|l|l|}
 \hline
 Sn. & \textbf{Table Column Head} \\
 \hline
 & \textit{Table column subhead} & \textit{Subhead} & \textit{Subhead} \\
 \hline
 1 & Data here & Data here & Data here \\
 \hline
 \end{tabular}
 \caption{This is my first table I}
 \end{table}

5. **List and Enumeration**

Please use the following style of list and enumeration. 

A. Lists
- The first item.
- The second item.

B. Enumeration
1. The first item.
2. The second item.

6. **Equations**

The equations should be symbolic type. Otherwise, it should be written in the same font “Times New Roman” and same size 12-point. Equation numbers, within parentheses, are to position flush right, as in Eq. 1 below. Use Eq. x (don’t use number only) to refer to the equation in your article.

7. **Citation**

The citation of references should use the number consecutively within brackets [1]. Do not use “Ref. [x]” or “reference [x]”, just put the reference number within brackets [ ] in the proper order as it appears in the references list at the end of document.
8. **Conclusion**

Here, write the conclusion of your article.

**Acknowledgment**

If any, you can put acknowledgments in this section. Any discussion or clarification, etc., should be written in any section of the article or as a separate section before this conclusion, which must be the last section in the article.

**References**
